

High Performance

With the Covid-19 Pandemic ongoing we have had very little competitive skating occurring for our skaters. The cancellation of Worlds 2020 and then the cancellation of most events for the rest of the 19-20 season and almost all of the 20-21 season.

That said with the upcoming Olympic games in 2022, we did see the World Figure Skating Championships take place in Stockholm. A big thank you to Karen Harris for stepping up to be the team leader.

Skater, Kailani Craine and dance team Holly Harris and Jason Chan represented Australia at Worlds 2021. While neither qualified both managed TES scores for the SP/RD above the Worlds requirement and generated positive GOE.

With the skating season in Australia forthcoming skaters should look forward to competition and benchmark events both online and in person. Virtual Benchmark events will allow overseas skaters to earn scores that will keep them in the Australia rankings.

Hopefully over time as the pandemic fades and the world returns to normal so will the skating season. Here's hoping for a more exciting report next year!
