

## **Wendy Meik**

### **History in the Sport**

I became involved in Figure Skating as an adult skater. Over the past 20 years, I have skated in a range of disciplines including Ice Dance, Pairs, Solo and Synchronized Skating which gives me a great insight into the world of skating and a broad understanding of the sport. As a national and international adult competitor, I have established a personal network of connections which has enriched my passion for the sport.

In my current role as ISA Treasurer, I have collaborated well with the existing Board, working closely with the executive team of Carole Ashworth and Peter Lynch. In this position, I have demonstrated my commitment and diligence to fulfilling my responsibilities in financial management, reporting and compliance to the Board. I have also really appreciated working alongside Jenny Houlahan, Kate Rotondo, and Cheryl McKewen in making a difference for the athletes and skating in Australia.

I have held numerous administration positions in figure skating:

#### **Olympic Figure Skating Club Inc**

Roles held Committee, Treasurer, Competition Convenor, President, club delegate to Ice Skating Victoria

#### **Ice Skating Victoria Inc**

Roles held Board member, Competition Convenor, Treasurer, President, and delegate to Ice Skating Australia

#### **Ice Skating Australia**

Treasurer

## **Professionally**

Bachelor of Business (Accounting) and have worked in industry – manufacturing and IT plus a range of small businesses and organisations.

I was instrumental in adding adults to State Championships and AFSC, also to adults having access to ISA jackets. After returning from Oberstdorf and together with Sue Hoseit from New Zealand we set up the ANZAS Adult inter-club competitions in February in NZ and AUS every 2 years, 12 years ago.

## **Competition Convening Events:**

Club competitions, 10 x VFSCs, 2 x AFSCs, International events – Oceania x 2

I am across most facets of the sport of figure skating except for the IJS, judges and officials, and matters technical. I leave that to the experts but I do know who to ask!

My focus (apart from the business of ISA and working for our athletes) is to improve communication between ISA and the States, and therefore the individual skaters/coaches.
